I. What is this product?

Type: The fund is a OGAW of the umbrella funds (Quantex Funds) launched in Liechtenstein.

Term: The Fund does not have a pre-determined maturity, it is established for an indefinite period. For the recommended holding period, see section "V. How long should I hold it and can I take my money out early?". The Fund may be dissolved by resolution of LLB Fund Services AG. This is particularly the case if significant changes in the actual circumstances occur that justify dissolution. The Fund must be dissolved by operation of law if it falls below the minimum capitalisation required by law.

Objectives: The aim of fund management is to achieve high growth in value. To achieve this, the sub-fund invests mainly in shares of companies worldwide. Within this framework, the fund management is responsible for selecting the individual securities. The sub-fund may use derivatives transactions in order to reduce possible losses due to exchange rate fluctuations as well as to achieve higher increases in value. The transaction costs for the purchase and sale of securities are borne by the sub-fund. They arise in addition to the costs listed under "Costs" below and may reduce the yield of the sub-fund. Investors may redeem their units on a daily basis in accordance with the prospectus. However, the management company may refuse redemption if exceptional circumstances make this seem necessary, taking into account the interests of investors. The subfund is managed actively and does not base its investments on a benchmark. The strategy selectively integrates sustainability issues as part of the selection of positions with a focus on corporate strategies, corporate governance and transparency.

The depositary of the fund is Liechtensteinische Landesbank AG. The Prospectus and the current annual and semi-annual reports, the current unit prices and further information on the Fund can be found free of charge in the legally-binding language according to the Prospectus at www.llb.li.

Intended retail investor: The fund is aimed at retail investors who pursue the objective of general asset accumulation / asset optimisation and have a medium-term investment horizon. This product is a fund for investors with no or little knowledge and / or experience in financial products. The investor can bear losses up to the complete loss of the capital invested and does not attach any importance to capital protection.
