## What is this product?

**Type:** The fund is a OGAW of the umbrella funds (Quantex Funds) launched in Liechtenstein.

**Term:** The fund has no fixed term, it was established for an indefinite duration. The recommended holding period is 8 years. LLB Fund Services Aktiengesellschaft may decide to cancel the fund. This applies in particular where significant changes of actual conditions occur which would justify a cancellation.

**Objectives:** The aim of fund management is to achieve high growth in value. To achieve this, the sub-fund invests mainly in shares of companies worldwide. Within this framework, the fund management is responsible for selecting the individual securities. The sub-fund may use derivatives transactions in order to reduce possible losses due to exchange rate fluctuations as well as to achieve higher increases in value. The transaction costs for the purchase and sale of securities are borne by the sub-fund. They arise in addition to the costs listed under "Costs" below and may reduce the yield of the sub-fund. Investors may redeem their units on a daily basis in accordance with the prospectus. However, the management company may refuse redemption if exceptional circumstances make this seem necessary, taking into account the interests of investors. The subfund is managed actively and does not base its investments on a benchmark. The strategy selectively integrates sustainability issues as part of the selection of positions with a focus on corporate strategies, corporate governance and transparency.

The depositary of the fund is Liechtensteinische Landesbank AG.

The Prospectus and the current annual and semi-annual reports, the current unit prices and further information on the Fund can be found free of charge in the legally-binding language according to the Prospectus at www.llb.li.

**Notes:** A prospectus, an annual report and a half-yearly report are drawn up for the umbrella fund, in which the individual sub-funds are presented separately.
As each sub-fund is a legally independent fund, the assets and liabilities of each sub-fund are legally segregated from one another; this segregation of assets and liabilities has no implications for the respective investors.
Units in one sub-fund cannot be exchanged for units in another sub-fund.

**Intended retail investor:** This fund is suitable for retail investors with the investment objective of capital growth and a long-term investment horizon of at least 8 years, who have no or little knowledge and/or experience with financial products and who are able to bear financial losses in order to achieve their investment objective, and who place no value on capital protection.

## What are the risks and what could I get in return?

**Riskindicator**

← Lower risk — Higher risk →

| 1 | 2 | 3 | **4** | 5 | 6 | 7 |
|---|---|---|---|---|---|---|

**The risk indicator assumes you keep the product for 8 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this productas 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium-low level. In poor market conditions, defaulted investments could negatively impact the fund's performanc **Be aware of possible currency risk. You may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.** Furthermore, there are other risks which are not included in the risk indicator. For detailed information, please refer to the prospectus. This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product (or a suitable benchmark/proxy) over the last 13 years. Markets could develop very differently in the future.

The fund is a special asset. You are not subject to the risk of insolvency, meaning a debt overload or the inability to pay on the part of LLB Fund Services Aktiengesellschaft.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:
- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10'000 USD is invested.

| | **If you exit after 1 year** | **If you exit after 8 years** |
|---|---|---|
| Total costs | 391 USD | 2'782 USD |
| Annual cost impact [1] | 3.9% | 1.4% |

[1] This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 14.4% before costs and 13.0% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you. These figures include the maximum distribution fee that the person selling you the product may charge (3% subscription fee corresponds to 2.91% of gross amount invested / 292 USD). This person will inform you of the actual distribution fee.
